

SAIYED SAFFANABEGAM MOHAMED SAEED

Aspiring Web Developer

Surat, Gujarat | +91 7777991023 | saffana@gmail.com | LinkedIn: linkedin.com/in/saffanabegam-saiyed-33ab19319

OBJECTIVE

Pre-final year IT undergraduate with hands-on experience building a complete e-commerce web application (S.S. Collection) using HTML, CSS, JavaScript, and Firebase. Currently expanding into React.js and backend development (Node.js, SQL, MongoDB). Seeking an entry-level Web Developer role to apply strong front-end fundamentals and a fast-growing full-stack skill set.

TECHNICAL SKILLS

- Languages & Core: HTML5, CSS3, JavaScript (ES6)
- Learning: React.js, Node.js, SQL, MongoDB
- Tools & Platforms: Git, GitHub, GitHub Pages, VS Code
- Cloud & Services: Firebase (Firestore, Authentication), Cloudinary
- Other: Responsive Web Design, REST-style API integration (WhatsApp Click-to-Chat)

PROJECTS

S.S. Collection — E-Commerce Website

HTML5, CSS3, JavaScript, Firebase Firestore, Firebase Authentication, Cloudinary | GitHub Pages

- Built a fully responsive luxury-themed e-commerce website for fashion accessories, including a homepage, product listings, and category filters (watches, shoes, bags, sunglasses, and more).
- Implemented dynamic product loading, search, wishlist, quick-view popup, and a shopping cart with add/update/remove functionality, powered by Firebase Firestore.
- Developed a secure Admin Panel (protected with Firebase Authentication) for adding, editing, and deleting products, and managing customer orders.
- Integrated Cloudinary for image upload and hosting, and a WhatsApp Click-to-Chat order system that sends order summaries directly to the store owner.
- Deployed the live site on GitHub Pages.

Personal Portfolio Website

HTML5, CSS3, JavaScript | GitHub Pages

- Designed and deployed a personal portfolio website to showcase skills, projects, and contact details, hosted using GitHub Pages.

EDUCATION

Bachelor of Engineering / Technology — Information Technology

C. K. Pithawalla College of Engineering & Technology, Surat (Affiliated to Gujarat Technological University – GTU) | 3rd Year (Pre-Final Year), Expected Graduation: 2028

ADDITIONAL INFORMATION

- Actively learning full-stack development, currently strengthening skills in React.js and backend technologies (Node.js, SQL, MongoDB).
- Comfortable working with version control (Git/GitHub) and deploying static sites via GitHub Pages.
